

14–16 TONS

KONECRANES LIFTACE FORKLIFT

FOR EFFICIENT AND SAFE HANDLING

Konecranes Liftace forklift is a simple, productive and durable workhorse for operator's diverse needs. The forklift moves loads from 14 tons up to 16 tons at load center 600 mm, and serves with long-lasting quality.

Proven technology

Konecranes Liftace forklift is built on strong engineering tradition and expertise, and with quality components. The machine is designed to work with modern control systems and drive technology. A high degree of standardization enables quick delivery.

Easy usage

Konecranes Liftace forklift is simple to operate. Optimal working speeds guarantee efficient handling rates. The short wheel base, 3250 mm, gives a tight turning radius.

Improved visibility

OPTIMA cabin makes operating the forklift safe and efficient. The remarkable visibility is made possible by smaller beams on mast and by very large, lowered windows with no corner posts. The 7" touch screen enables a more spacious cabin, and more space for operating the foot pedals. Enhanced spaciousness and visibility improve operating ergonomics.

Ensures reliable and economical operations

Adjustable to several industries

With basic usage, efficiency and remained quality the forklift is well suited for many different tasks for various industries. It's a perfect option for rental fleet too.

Effortless maintenance

Konecranes Liftace forklift is simple to maintain, for instance through the tilting cab that facilitates service actions. Due to low fuel consumption and predictable maintenance costs the forklift is operated at competitively low costs.

BENEFITS OF KONECRANES LIFTACE FORKLIFT

- Suitable for various industries
- Operates in tight situations
- Increased driver safety due to excellent visibility
- Simple utilisation and maintenance
